

EVALUATION FORM FOR TECHNOLOGY EXPLORATION (TE-1,2,3)

TE-1 MATERIAL COMBINATION PROJECT (Awards in: A,B,C,& E)

An entry in this classification must involve work in two or more technology lab material areas. Example: (A lamp constructed of wood and plastic would represent two material areas and the electrical wiring would represent the third material area.) This project must be made in a technology lab course rather than a unit lab course.

TE-2 MULTIPLE PROJECTS

A student may enter two or three separate projects produced from the various technical areas. Example: (One project from the graphic arts area, one from the electronics area, one from the power area, etc.) These projects must be made in a technology lab (multiple areas of study) course rather than a unit shop (single area of study such as wood, metal plastics, etc). Note: A drafting **entry** and another project **entry** with its required set of drawings qualifies for TE-1 classification.

TE-3 MASS PRODUCED PROJECTS

An entry in this classification must involve work from a technology lab group of 10 or more students which planned and constructed a mass production project. The best three of the mass produced run will be entered for judging.
